Magistrates Take a Stand Against Autopsies in Fiscal Court

OBJECT TO PAYING \$5.

Several Claims Allowed in Fiscal Court Today and Yesterday Afternoon—Small Pox Claims.

A NEW FILL WAS AUTHORIZED.

Fiscal court has placed a ban upon autopsies. It has decided that autopsies are usually unnecessary in McCracken county. This morning Coroner Phelps, who has been ill for the past several weeks, was dragged on the carpet and it is probable will order no more autopsies in the future. A bill for \$55 from County Physician Penhley was in for discussion, and there was strong disposition not to pay it. The bill was for holding autopsies ordered by the coroner, the records showing that there have been eight held since the last term of court in April.

After an exhaustive discussion the board decided to pay the bill, but stated emphatically that it wouldn't stand for any more, or at least except when necessary. One of the eight autopsies was performed by Dr. Graves, who was allowed \$5 for it.

Hotelkeeper M. Nance was allowed \$104 for funeral burials. Justice Jesse Young was allowed \$26 for acting as county judge during the interim from the death of County Judge Tully until Judge Emery was appointed.

This afternoon the claims of the city for smallpox expenses will be taken up and probably be usual refused. The county may pay for the six county patients the city took care of, but if the several thousand dollars additional are paid, it will be only after all the courts have decided so.

Yesterday afternoon County Judge Emery was authorized to borrow \$6,000 to further prosecute the county road work. Justices Barber and Young were opposed to the county's borrowing any more money than \$3,000, but they were voted down.

Supervisor Bert Johnson was instructed to build a fill in place of the bridge beyond Clark's river. The cost will be about \$2,000.

Justice Hocker was authorized to close a deal with G. W. Simmons selling a gravel pit of one and one-half acres. Mr. Simmons to pay the county in gravel at the rate of five cents per square yard.

Back Tax Collector G. T. Thorpe reported the collection of \$268 back poll tax of which the county received \$181.50.

Dr. Frank Ford was allowed \$150 and Dr. H. T. Rivers \$40 for attention in county smallpox cases.

Miscellaneous bills amounting to over \$2,000 were allowed.

In the referred case where Contract or W. D. Melton, who wanted the balance, \$65, for work he had done on the Woodville and New Liberty road, Squire Hocker and County Attorney (Graves) reported the road in good condition and the allowance was made.

The officers were allowed their salaries and court adjourned until this afternoon at 2 o'clock. The afternoon session will be short and at its adjournment Judge Emery will take up the case of Frank Hille, charged with criminally assaulting Abbeberry.

YACHT CAPSIZES.

FIVE PERISHED IN THE WATERS AS A RESULT TODAY

New Haven, Conn., July 18.—The yacht Venezia capsized in Long Island Sound today and Arthur Tolburn, the Philadelphia millionaire, his two daughters and two of the crew perished.

REPUBLIC THREATENED.

STARTLING REPORT OF A FRENCH CONSPIRACY TO OVERTHROW REPUBLIC.

London, July 18.—The Pall Mall Gazette prints a Paris report of an alleged conspiracy to overthrow the French republic and make Prince Louis Napoleon emperor in September. The publication has created the greatest excitement and comes as a great surprise.

An Operator's Mistake Proves Costly on the L. & N. Last Night

TWO PEOPLE WERE KILLED

Freight Trains Collided Near Nostoville—Supt. Wallace Here—L. C. Backing Grand Rivers Enterprise.

TODAY'S NEWS OF THE RAILROADS

There was a disastrous wreck on the L. & N. between Nostoville and Lexington last night about 8 o'clock. Two freight trains met in a head-on collision and many cars were demolished. A white brakeman named Corlett and a tramp were killed, but so far as is known no one was hurt.

The wreck is said to be due to the mistake of an operator in delivering orders.

Supt. H. U. Wallace, of Louisville division, is at the Palmer today. He is in the city on business and was a caller at Mayor Lange's office today to look after the material interests of the company and the city.

It is claimed in dispatches from Chicago that the Illinois Central is behind the move to develop the iron and coal lands of this section, which it is backing Messrs. John W. Harrison and E. C. Simmons and Tom Scott, of St. Louis. It is claimed that the Grand Rivers and Hillman furnaces are not the only ones to be operated by the company, and that everything will be done on a lavish scale.

The Illinois Central will soon put in operation an electric light plant which will illuminate its entire right of way in the city of Chicago at night and also its main line for thirty miles out of Chicago. The lamps will be close together and it is expected the right of way will be as light during the night as in the day time. The wires for lighting are laid in cables in stoneware conduits under ground.

Mr. C. W. Tite, traveling auditor of the Illinois Central was in the city yesterday.

Mr. A. D. Brooks, superintendent of the water supply of the Illinois Central, returned home to Central City today after a brief visit to this city.

MRS. READ DEAD.

WELL-KNOWN LADY SUCCEUMS AFTER A LONG ILLNESS.

Mrs. M. J. Read died this morning shortly before noon at her residence 234 North Eighth street. She had been ill for the past several weeks but was improving up to Monday when she suffered a relapse and this morning passed away. She leaves seven children, Messrs. Alex. Bell, Will, Charles, Victor, Ed and Mrs. Effie Flinch. Besides many relatives residing in this city. She was 59 years of age at her death and had been a life-long resident of this city. The deceased was a member of the Baptist church and during her life was a diligent church worker. The funeral arrangements have not yet been made but will probably be held Sunday afternoon at Oak Grove.

102 TODAY.

THE TEMPERATURE GOES UP AGAIN—NO PROMISE OF RAIN

The temperature went to 102 this afternoon, and last night and today the heat seems to have been more felt than on days when it was really warmer. It was a sultry heat, and has made rain all the more necessary and desired. The weather predictions are for fair and continued warmer. The lowest registered today was early this morning when the mercury took a drop to 75.

Light rain visited the following places today: Mayville, Owensboro, St. John and Greenburg.

THE GRAMMAMVILLE LOSS.

The loss of the store owned by Mr. Z. C. Graham, of Grammamville, was settled this morning. The stock was damaged to the extent of \$3,600 and the building \$1,000. Adjustor Dugan is today settling the Sam Liebel loss.

LABOR UNIONS

Last Night The Central Organization Elected Officers For The Ensuing Year.

PRESIDENT SAM SIMON.

The Labor Day Committee Will Meet This Evening to Begin Arrangements For the Celebration.

A PRESS COMMITTEE PROBABLE.

The Central Labor union met last night and elected the following officers: President, Sam Simon, leatherworkers', re-elected, recording secretary, W. F. Davis, Plumbers'; financial secretary, George Johnson, Clerks'; treasurer, William Robertson, Plumbers'; trustee, A. Allen, Printers'; J. D. Lasky, Harbers'. The president, Mr. Simon, was re-elected and should consider the tribute an honor. He is one of the foremost union men and a hard worker for the welfare of the unions. In the past several years he has worked diligently and has succeeded in making Paducah one of the best union towns in the state. For his size there is probably not another city in the state that has any more unions or that takes any more interest in union work.

The Painters' union have elected officers as follows: P. R. Collins, president, A. J. Glenn, vice president, Samuel Holland, financial secretary, S. Holder, recording secretary, James Weiss, warren, H. F. Farrow, precursor, and Mr. Laidy, conductor.

The committee on arrangements for the labor day celebrations will hold a meeting tonight and start the ball rolling on the program. The boys intend to make this the best labor celebration ever held in the city and will spare neither trouble nor expense to make it so. The unions will exhibit more activity since the elections in the Central Labor union has been held and important developments are expected. The celebrations this year will be extensively advertised out of the city and will no doubt be well attended by people from the neighboring cities.

The next meeting of the Central Labor union will be held the first Thursday in August and at this meeting the many standing committees will be appointed by President Simon. One new committee that will be appointed is the press committee, which will furnish the news of the meeting to the daily press. In this way all the news of the unions will be given out and there will be no chance to get "dinted mixed." This feature will aid in many ways the progress of the unions and is a good move on the part of Mr. Simon who first started it.

TELEPHONE WORK.

NOT MUCH PROGRESS BEING MADE ON THE LONG DISTANCE LINE.

The linemen went out by Supt. Joyner of the Cumberland, to work on the long distance line between Paducah and Princeton, have reached Stiles, about six miles above. They make about a quarter of a mile a day.

SWIFT RETRIBUTION.

ALLEGED MURDERER FATALITY HURT ON THE RAILROAD.

Mayville, July 19.—Elmer McCate, who killed Charles Dangley and William Feders, both of Newport, was fatally hurt by being struck by a train while asleep on the railroad track.

WARRANT ISSUED.

BELLE MILLER DIDN'T KNOW FOR CERTAIN THAT SHE WAS SHOT.

Belle Miller, colored, appeared before Judge Sanders this morning and swore out a warrant against her husband, Will Miller, who is alleged to have maliciously shot her in the head night before last because she wouldn't shake hands with him when he announced his determination to leave her forever. The warrant charges him with maliciously shooting her. When she was asked by a reporter if her husband hit her with a club as reported or shot her, she replied: "Well, now, of twah a club, hit made a mighty loud noise, sho."

"Yes," sarcastically observed Judge Sanders, "of course clubs are in the habit of going off like that!" The warrant charges Miller with maliciously shooting just the same. Miller is negro.

SOLDIERS' COMMITTEE. ENCAMPMENT SITE TO BE SELECTED AT METROPOLIS TODAY

Today at Metropolis a committee from other cities will select a site for the encampment of the Southern Illinois soldiers and sailors association which will probably be the first or second week in October.

The committee was met at the depot by a reception committee and driven over the city. The site will be selected today. In the committee are James S. Martin, Salem, (Ga.) C. W. Paver, Mt. Vernon, Maj. J. P. Crocker, Mt. Vernon, Maj. S. Kragloff, Nashville, Capt. Horace Adams, Tamaroa, Captain E. Dillon, Benton, Dr. George Himey, Salem.

POPULISTS TO ORGANIZE. IT IS PROBABLE THAT THEY WILL PUT OUT A COUNTY TICKET

The populists are preparing to put out a county ticket, according to reports. The party is to be thoroughly reorganized at Kansas City the 24 of August and the members are reviving it everywhere. It is probable that a call will be issued in a few days for a reorganization of the populists in this county, and a ticket nominated.

STREET IMPROVEMENT. THE COUNCIL TO TAKE UP ANOTHER IMPORTANT SUBJECT

Mayor Lang will bring before the council at the next meeting the matter of opening and improving Princeton and Atkins avenues, in the north western part of the city. The inhabitants greatly desire sidewalks and outlets, and the prospects are for improvements along that line.

URNS UP WELL. MR. GEORGE ROBINSON, THE TAILOR, RECEIVES GOOD NEWS TODAY.

Mr. Bob Robinson, the well known clarinetist, is now in Carrollton, Ga., in charge of the Seventh regiment band, and will be in Paducah about August 1 on a visit to relatives.

His brother, Mr. George Robinson, the tailor, this morning received a letter from him conveying the above information, and it was the first word he had received from him for nearly two years, and he had begun to fear that he was dead. Mr. Robinson is well and favorably known in Paducah and was formerly one of the most valued members of Dean's band.

POLICE COURT.

NOT MANY CASES BEFORE JUDGE SANDERS THIS MORNING.

Warner Edmunds and his wife, Salie, colored, were charged in the police court this morning with engaging in a mutual fight. They live near Twelfth and Madison streets and fell out because she objected to supporting Edmunds during the hot weather. They were fined \$10 each and reprimanded in the sum of \$200 for their good behavior for twelve months. Tillie McKnight, colored, was charged with using insulting language, and the case was partially heard and left open.

MANY NUMBERED.

THE HOUSES IN THE OUTSKIRTS BEING RAPIDLY SUPPLIED. The houses in the suburbs are being rapidly numbered since the mounted carrier began making his trips. Mayor Lang stated this morning that from the previous rate they would all soon have numbers. Every one that is without a number is reported to the city hall and the proper steps taken to provide the numbers.

NOT LET. THE BIDS LEFT OPEN UNTIL MONDAY—HOSPITAL CONTRACT.

Action on the bids for the new Masonic Old Fellows' building has been deferred until next Monday. As soon as some preliminaries are disposed of the proper steps or letting the contract will be taken. It is thought that the addition to the Illinois Central hospital will not be completed by August 1 the date named in the contract. The hospital will be ready for occupancy however, by September 1.

NO MEETING. AS THE PROFILES ARE NOT READY THE COUNCIL DOESN'T MEET

City Engineer James Wilcox is ill and has been unable to get up the profiles for the extension of Tenth street. Hence the council meeting Mayor Lang was to have called for tonight is declared off until next week. It will probably be held Monday.

DAILY THOUGHT.

"Humanity began long ago the civilization of appreciation, and today men of culture recognize that it is a quality no one can afford to ignore."

THE GOVERNOR'S PARLORS.

The Democratic Republican says in commenting on Gov. Beckham's recent outrageous parlor: Mr. Beckham has pardoned the Democrats of Pike county for shooting Republicans. The pardon was signed almost, if not altogether, by Democrats. Thus a lot of Democrats charged Democrats of crime with as much unanimity of feeling as a Democratic count and a Democratic jury convicted Republicans of murder without testimony, and it is so easily done.

The London Mountain Echo expresses this view of Beckham's in family:

It is a terrible thing in the eyes of the law. Beckham for a Gibraltar to be indicted by a Republican grand jury and tried and convicted before a Republican judge, but judging by his association and notoriety it is all right for a Republican, who has been robbed of an office to which he was honestly and fairly elected, to not only be indicted, but tried by a jury composed entirely of Democrats, selected for that purpose, and tried before a court whose rulings were so prejudicial to the defendant as to be denounced as such by the unanimous voice of the highest court in the land. Surely half of whom possess the same political bias as the trial judge does.

The Mayville Public Ledger adds this additional thought as a "cracker" to the whip with which C. J. Beckham is being lashed:

Beckham's multitude of parlor would come in better grace if he hadn't protested so strongly and loudly and frequently from the stump that he would "never pardon any man who had been convicted by a jury of twelve men" or did he refer to anti-Republicans who had been convicted by a jury of twelve men? By a jury of twelve men? By a jury of twelve men?

The people of Henderson want a work house, and the people of Paducah need a work house also. It would be a great saving to the taxpayers, for it would enable the city to get some benefit from the surplus made on its treasury by the support of families, who are now forced to rely upon their own resources. There is no place to work the men on rainy days, and in the fall and winter the city sustains a considerable loss in this respect. If Paducah had a work house, she could require tramps who apply for shelter in the winter, and other people who apply for aid at all times of the year, to work for what they get, and there would be some return, however insignificant, for the large sum spent annually for the support of idle prisoners and the relief of impudent transients. Judge Sanders has time and again recommended a work house, and the city once recently made arrangements to build one, but for some reason never carried out its plans. The cost would not be large, and the revenue that would accrue from it in a short time fully reimburse the city for the outlay.

Some of the courts are quite hard on cities, and large amounts are assessed against them in various parts of the country for alleged negligence. The city of Decatur, Ill., has just had to pay \$11,000 for allowing several boys to have a private telegraph wire across the street. The authorities paid no attention to it, and thought it would be an arrogant exercise of authority to compel them to remove it. One day during a storm the wire broke and fell across a trolley wire, and killed one boy and maimed another for life. The court held the city liable and the total cost, after compensating for \$7,500, was \$14,000.

The Henderson Glazer says regarding municipal platforms: "Of course the same old stereotyped promises come from each and all that the will, if elected, do his duty to the best of his ability and give the city a clean administration." Ability is in quantity of variable quality and ideas of cleanliness may be no higher than those of the old lady who said she always took a bath once a year whether she needed it or not. While the personal character of the candidate is to be taken into consideration, the principles for which

he stands are equally worthy of consideration. It therefore behooves the citizens to require candidates—especially those running for the council and majority—to describe their platform."

The claim that there is nothing new under the sun is fully disproven by Newport's latest social society function. It is to be given the latter part of July, and will be called a "patent medicine dance." The various fashionable who are to participate are to wear costumes representing the familiar characters who appear in various advertisements for pills, cough syrups and other patent preparations. It promises to eclipse anything of the year in the social line.

Complaint is being made of the quality of gravel that is being placed on the streets. It is claimed that some of the stuff includes everything from sand and mud to boulders as large as a man's head. The people don't mind the sand and mud, for they are used to them, but they seriously object to having to ride over such obstructions as some of the boulders make.

The Ohio Democrats, who recently held a convention about the idea that the reported free silver Democratic convention would materialize. They claim that the promoters cannot be found, and as usual are trying to lay it at the door of the Republicans.

A Mayfield man has brought suit for \$300 against the owner of a barn for saving the structure during the recent big fire. The owner is probably sorry that the man didn't let it burn.

McCracken county has good roads but she has to pay like blazes for them. It costs about as much to keep up the roads of the county as it does the streets of the city.

ELLIS GLENN HAS NO SCARS.

STATE'S WITNESSES HAD TESTIFIED THAT HERT GLENN HAD SCARS.

Parkersburg, W. Va., July 19.—The trial of Ellis, alias Elbert B. Glenn, for forgery, continues to drag wearily along. The state, believing that it has satisfactorily proved that the woman at bar of the court is the same person as Elbert B. Glenn, who was "traded" as a man successfully for several years, is now confining itself to testimony tending to show that a forgery was committed by which William Richardson was swindled and that the accused did it.

Most of the witnesses that have testified yesterday and today were alleged handwriting experts, bankers, postal clerks and people engaged in work where they have an opportunity to study orthography.

Tomorrow the witnesses for the defense state that they will diminish half the case the state has made by proving that Ellis Glenn has no scar on his head or on the palm of the left hand.

The state's witnesses testified that Bert Glenn had such scars, and that they were large scars and conspicuously noticeable, also, that he had false teeth. A committee of newspaper men was allowed to make an examination of the woman's head and hands tonight and not a scar such as Bert Glenn is said to have had, was found.

Ellis Glenn will be the most important witness for herself. She will maintain that she is the twin sister of Bert Glenn, and that it was he who did the crime, if any was done, that she does not know where he is and that her arrest was a case of mistaken identity.

Tomorrow Judge Shaplen will render his decision on another important motion that was made by Glenn's attorneys, and argued today for several hours. Judge McClure, for the defense, stated that the deed of trust did not correspond with the allegation in the indictment. The proof must correspond with the allegation, otherwise it is void, and he moved that the deed of trust be excluded. In the allegation E. B. Glenn is charged with forgery, while the name in the deed of trust is E. B. "Glenn," therefore, violating the indictment. The attorneys for the state said that no court would hold that such a slight technical error would vitiate the indictment, and they were surprised that the defense would raise such a weak point, and attempt to defeat the ends of justice in that way.

James G. Ambert, of Delta, O., writes: "I had an obstinate sore on my face which everything else failed to heal. After one application of HANNAH'S BALM it began to heal and after three applications it was entirely healed leaving no scar." J. C. Gilbert.

RURAL ROUTES

Surprise That Kentucky Has Not More of Them.

ONLY THIRTEEN HERE

The Department is Willing to Establish Them Wherever Requested to Do So.

WILL MAKE GOOD ROADS

Washington, July 19.—The rural residents of Kentucky either do not want or cannot secure the benefits of rural free mail delivery, or else the congressmen are not attempting to look after the interests of their constituents. From half a dozen to a dozen new routes are established every day, but there is never a Kentucky route on the list.

"I cannot understand why the Kentucky people do not make an endeavor to secure the rural service," declares Superintendent Maclean. "The states around Kentucky are well supplied with routes and new ones are being established every day."

He then referred to his books and produced the following figures: Ohio has 309 routes and 813 applications pending; Michigan has 270 routes and 392 applications pending; and Indiana has 335 routes and twice as many applications pending. Kentucky has only thirteen routes and only thirty-nine applications pending.

"Certainly the department is just as willing to extend the service in Kentucky as in any other state," continued the superintendent, "but we do not endeavor to establish routes where no endeavor is made to secure free delivery."

While the service has been established for more than two years many persons do not know how it can be obtained. For the benefits of such readers who live in the country and are not on a rural free delivery route, it is stated that applications for the service must be signed by persons who want the service. This petition must be sent to the congressman of that particular district, and by him approved and sent to the department.

This application is referred to the special agent in charge of one of the six districts, and by him referred to a subordinate agent for investigation and report. If this agent reports favorably upon the petition it is returned to the special agent for approval, and by him referred back to the chief agent in charge. A description of the proposed route is sent with the petition. This petition is then approved by the special agent in charge, the service is put in operation and the carriers appointed.

One of the advantages of this service outside of the prompt dispatch of mail, is the improvement of the roads. The department insists that the roads traveled by the carriers must be in passable condition, all rivers and creeks safely bridged. The roads must be improved whenever necessary. This duty is imposed upon the county commissioners and they will see that the work is done in order not to lose the service.

It is predicted that the service will do more for the good roads improvement than any other scheme that could be proposed. The service will eventually cover the entire country in such a way that every little country road will become a rural free delivery route, and will be kept in repair by the patrons of that route who desire their mail delivered each day.

TO ALL PERSONS HAVING FARM, TIMBERED, OR MINERAL LANDS, OR WATER POWERS FOR SALE.

The Nashville, Chattanooga & Louisville Railway proposes to use its best efforts to induce a good class of immigrants to settle in territory contiguous to its lines and to engage the attention of capitalists seeking manufacturing sites or mining property. It therefore solicits the support, the cooperation and the assistance of the people of every county through which its lines pass. The management earnestly requests that all persons who have farms for sale or lease, those who have timbered lands, water powers or mineral lands for sale, will send a brief description of the same to the railroad agent nearest them, giving the prices and terms of sale. The prices must correspond with the prices asked of local buyers. The management does not propose to add in selling land to immigrants at exorbitant or speculative prices.

Large tracts suitable for colonization, at low prices, are especially wanted.

EPWORTH LEAGUERS

TWELVE SPECIAL TRAINS BEARING DELEGATES ARRIVE AT 'PRISCO—CONVENTION OPENED YESTERDAY.

San Francisco, July 18.—The influx of Epworth Leaguers continues day and night. Twelve of the special Epworth League trains which left Ogden Monday reached Sacramento about midnight last night and were among the early arrivals today. About 4,000 delegates will come from the east over the Southern Pacific lines. In addition several delegations will arrive from southern points. Rev. A. C. Crows of Toronto, Canada, general secretary of the Epworth League of Canada, arrived last night on a special train with 150 Canadians.

Among the most prominent members of the party is Rev. James Henderson, D. D., of Toronto. He is associate missionary secretary for the dominion and will respond to the address of welcome Thursday afternoon for his delegation.

The missionary department of the convention will have some live exhibits. Rev. A. E. Wing of Utah has arrived with twelve native Indian children and their teacher, Miss Alice Swayze, who will be guests of the league.

Today was devoted to the completion of the details of the convention which will be formally opened tomorrow morning. The question of holding these conventions every four years instead of biennially may be raised at this meeting.

LIVELY SPILL.

SAM BRONSTON'S WAGON OVERTURNED ON THE LEVEE.

Sam Bronston, the colored esquire driver, was on his way to the Dick Fowler this morning about 8 o'clock with a load of luggage, when he attempted to make a short turn and his wagon was capsized. He and another negro were spilled out on the hard stones and the trunks were scattered for yards around. The wagon was slightly damaged and the horse hurt, but there were no serious consequences.

Dizziness and headaches cannot be cured in any other manner than by getting at the root of the trouble and curing the cause. The cause is almost invariably a disordered digestive system, or else a bad stomach and clogged bowels are responsible. Laxakola, the great Tonic Laxative, is an unfailing cure. It works gently and painlessly and at the same time acts as a tonic to the bowels, stomach, liver and kidneys and builds up the system instead of weakening and irritating it as other laxatives do. Its remarkable properties reach every organ—the liver, kidneys and stomach, nerve, heart and brain—and remove the cause of your debilitated condition. This is the only way to secure an absolute and permanent cure. Laxakola is the only tonic for babies, is purely vegetable and its action is gentle, speedy and effective. For coated tongue, simple fevers, colds, chills and lagged feeling it is the ideal medicine. It tastes good. **EP Children like it and ask for it.**

LAXAKOLA FOR WOMEN. It is a gentle and safe remedy in use during all conditions of health of the female sex whenever there is constipation or indigestion, or a mild and efficient laxative and tonic, and is invaluable in securing a regular and healthy condition of the system. It improves the complexion, brightens the eyes, dispels the appetite, cures the nervous system, and builds up the system and corrects all disorders of the system. To women suffering from constipation, indigestion, biliousness, flatulence, all forms of the skin and diseases, Laxakola will invariably bring relief. At drug stores, 25c and 50c, or send for free sample to THE LAXAKOLA CO., 15th Avenue, New York, N. Y., or 15th and Broadway, Chicago.

Healthy Old People say the main thing to do is to keep the stomach, liver and bowels in order if you want to keep well and live long. Good physicians say the same thing, too. The remedy called **RIPANS TABULES**

while not mysterious or miraculous in its curative qualities, is a simple formula prescribed by the best physicians for disorders of the digestive organs. Just little Tablets, easy to take, easy to buy and quick to act. If your trouble is Dyspepsia, Biliousness, Headache, Dizziness, Constipation, Heartburn, and the like, no need of calling a physician. Ripans Tablets contain exactly what he would tell you to take. Permanent cure follows a fair trial. No uncertainty about it. **ONE GIVES RELIEF.**

There is scarcely any condition of ill health that is not cured by the immediate use of R. P. A. Tablets, and the price is so low that every one can afford to use them. A quantity bought at once will save the trouble of repeating the order. A full trial will show the value of the remedy. A full trial will show the value of the remedy. THE ALLARD LOSS.

The total loss in the Allard fire at Brookport has not been estimated but the following is a list of the contents that were destroyed: Eleven head of horses, four cows, ten pigs, and farm machinery, last year's crop of hay, corn and all the chickens amounting to several dozens. Mrs. Allard held a policy for \$500 on the barn but the tenant of the farm, Jerry Crumblough, colored, held no insurance. The fire is supposed to have originated by crop shooters who had been smoking and who had probably left a spark from their pipes.

MAYFIELD ENTERPRISE

A COMMITTEE COMING HERE NEXT WEEK TO INSPECT.

Today Mr. Ed Bonger is here to meet Col. R. T. Polglase, of Chicago.

Mr. Ed Bonger, of Mayfield, and formerly a member of the Paducah fire department, is in the city today to meet Col. Thomas R. Polglase, of the Chicago Fire Extinguisher company, and accompany him to Mayfield, where he will make an effort to place in a first class apparatus.

Col. Polglase is the gentleman who sold Paducah her chemical engine, and is well and favorably known here. He has often been in the city and will spend several days here before returning home to Chicago.

Next week some time perhaps the first of the week, a committee from Mayfield will visit Paducah and inspect the fire departments in order to model Mayfield's proposed department after the efficient service of Paducah. The committee is composed of Jas. W. W. Robertson and D. G. Park and Hon. R. E. Johnston.

COUNTY ROADS.

THE COST THIS YEAR WILL BE NEARLY \$20,000.

Over Ten Thousand Already Spent—Fifteen Miles of New Road to Be Built.

County Road Supervisor E. B. Johnson will begin the work of constructing the fill near Clark's river in a few days. Fiscal court yesterday authorized it, and the cost will be about \$2,000. The bridge over the slough beyond Clark's river is in such a condition that it would have to be replaced and as a fill is deemed best and cheapest in the long run, it was decided to build a fill instead of the bridge. It has not been decided whether the county will do the work or let a contract for it.

Over \$10,000 has been spent already this year on the roads and the \$5,000 the county will borrow will probably not complete the work of the year. There are repairs to be made, and in addition fifteen miles of new road to be built. Much work has been done this summer, owing to the fact that there has been little or no interference from rain.

NEW MARSHAL.

MARSHAL CONLEY, AT BROOKPORT, RESIGNS HIS OFFICE.

THE RIVER NEWS.

Observations taken at 7 a. m. River 7.1 on the gauge, a full of 0.2 in last 24 hours. Wind west and calm. Weather clear and hot. Temperature 81. Bell, Observer.

The Peter Lee went into St. Louis yesterday with 11,000 sacks of wheat which is the biggest cargo of wheat that has been taken to St. Louis this season on a single trip by any other boat. The City of Memphis is next as she had on one trip this season 9,000 sacks.

The Joe Fowler will report from Evansville this afternoon and leave on return trip shortly after arrival.

Joe St. John, river reporter on the Democrat, was reported quite sick yesterday, which his many friends learned with regret and hope to see him out again soon giving his usual good river news column.

Business very good down on the wharf today.

Mike Williams, boss of the Marine ways at Mound City left for home this morning on the Dick Fowler.

The John K. Speed and Sunshine were compelled to pay 25 cents per hour for labor yesterday and even then it was scarce, the negroes refusing to work as long as they could keep 75 cents in their pockets to protect them from the dangers of the vagrant law, says the Louisville Post. They rejoice to see the mates worrying over the impossibility of getting men to help load and unload steamers. The Sunshine did not get away from here for Cincinnati until 8 o'clock this morning. There is a rumor current in the packet companies plying steamers out of Louisville have combined to send an agent to New York to negotiate with the Italian agency there for 150 men to man the forecables of their boats and thus do away with depending on negro labor. The story is that the movement is being kept very quiet and that only men who have had boat experience in the old country will be engaged, also that the contract will make it next to impossible for the men to desert the task they will take upon themselves in coming to this region, while it will be equally as binding on the packet companies, in that, if the change takes place, and it will be the death knell to negro labor on Ohio river steamboats.

The Wm. Towle and large which has been chartered by Captain Danner of the City of Golden to fill the place of his boat now receiving repairs in handling loss of wheat.

The City of Memphis is due tomorrow morning from St. Louis for Tennessee river.

The steamer Erantha bought at Cincinnati by Captain Blair of Davenport, Iowa for \$17,000 is due here next Sunday on her way to the upper Mississippi.

A big barge is now on the marine ways for repairs.

The Tennessee arrived from Tennessee river this morning with a big trip.

The Dick Fowler left for Cairo on time this morning with another big wheat trip for Cairo, also a good register of passengers.

The Evansville packets, Joe Fowler and John's Hopkins have been getting in late this week on account of the scarcity of labor. As the wheat season is now on and large quantities of it is to be moved, "Mr. Good" is not going to work but when business gets dull on the river and no freight to handle the negro roustabout will be found begging for employment. There is now a move on foot to remedy the matter by applying to the Italian labor agency in New York for that class of labor to work on steamboats and they are far better and more reliable than the negro labor, no less been proven on the upper Mississippi river.

Major W. H. Rixley announces that he will begin the first of next week the work of dredging the Ohio river between Evansville and Mound City. This is good news to the steamboat men who will hail with delight the appearance of dredgers in this country.

Approaching Steptoe.
Cards are out announcing the marriage of Miss Christine Wilson to Mr. W. Benford Davis. The marriage is to take place Wednesday evening July 21st at Bethlehem church, Cadiz. The young lady is the daughter of Mr. and Mrs. Chas. Wilson and is well and favorably known all over the county in social circles. The groom to be is a rising and prominent young man who has already achieved an enviable reputation in educational circles. —Cadiz Telephone.

Clash of Swords.
The gun of Lorda an Indian prince, has a battery of artillery consisting of gold and silver guns. There are four guns, two of gold and two of silver. The gold guns were made in 1874 by an artisan of Lakhs, who worked on them for five years. They weigh 400 pounds each, and except for the steel lining, are of solid gold. They are mounted on gun carriages of carved wood, overlaid with silver. In 1878, when the gawkier went to Bombay to meet the Prince of Wales, he took the gold guns with him to salute the prince, and that was the only occasion on which they have been allowed to leave the state of Baroda.
